M.A.A.T.A.C.

Five Complete Vehicle Lines from Robots to Heavy Tanks

THE RULES INCLUDE: All the original rules released in the original rules, plus all the supplemental material we could lay our hands on. These are the same rules, fast, quick and a great game for playing large numbers of tanks and robots in one game.

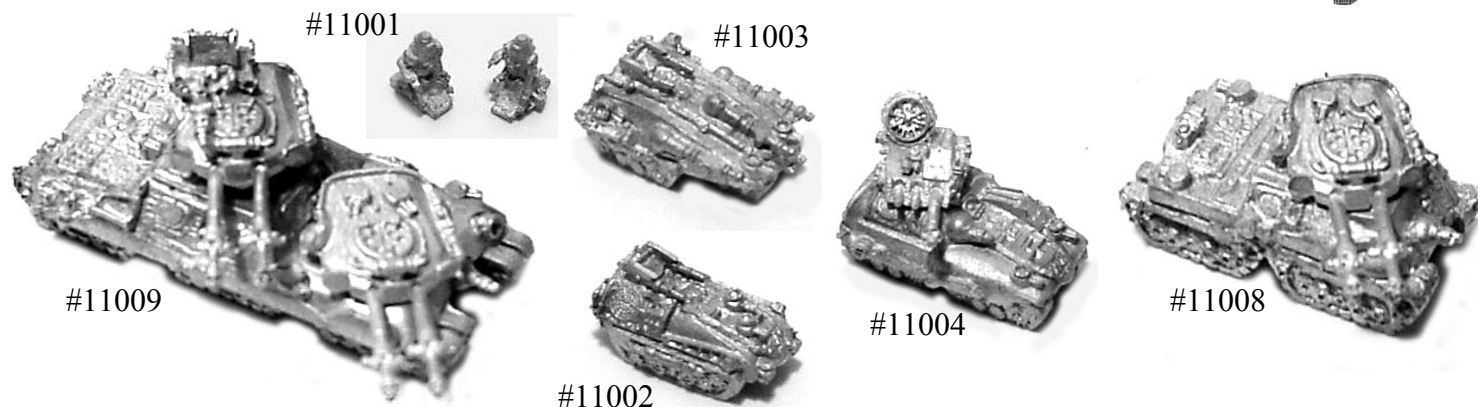

PLAYERS: At least = 2 ; At Most = As many players as you can fit on the table

TIME: Varies a great deal on the number of vehicles being used. During playtesting we have found that a game with 10 to 15 vehicles per side and four players takes us about 2 hours from put down and pick up.
